Medical Anthropology

Andrea S. Wiley 2009 Intended
as the primary text for
introductory courses on
medical anthropology, this
book integrates human
biological data relevant to
health and disease with both
evolutionary theory and the
social environments that more
often than not produce major

challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

Disciple IV Abingdon Press 2005-05 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE

STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in

this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Marginalised Communities in Higher Education Neil Harrison 2021 "Drawing on examples from nine countries across five continents, this book offers anyone interested in the future of higher education the opportunity to understand how communities become marginalised and how this impacts on their access to learning and their ability to thrive as students. Focusing on groups that suffer directly

through discriminatory practices or indirectly through distinct forms of sociocultural disadvantage, this book brings to light communities about which little has been written and where research efforts are in their relative infancy. Each chapter documents the experiences of a group and provides insights that have a wider reach and gives voice to those that are often unheard. The book concludes with a new conceptualisation of the social forces that lead to marginalisation in higher education. This cutting-edge book is a must read for higher education researchers, policy makers, and students interested in access to education, sociology of education, development studies, and cultural studies"--

Protecting the Internally Displaced Phil Orchard

2018-11-01 Today, there are over 40 million conflict-induced internally displaced persons (IDPs) globally, almost double the number of refugees. Yet, IDPs are protected only by the soft-law Guiding Principles on Internal Displacement at the global level. Instead of a dedicated international organization, IDPs receive protection and assistance only through the UN's cluster approach. Orchard argues that while an international IDP protection regime exists, many aspects of it are informal, with IDP issues bound up in a humanitarian regime complex that divides the mandates of key organizations and even the question of IDP status itself. While the Guiding Principles mark an important step forward, implementation of laws and policies based on them at the domestic level remains haphazard. Action at the international level similarly

reflects an all-too-often ad hoc approach to IDP issues. Through an in-depth examination of IDP efforts at the international level and across the forty states which have adopted IDP laws and policies, Orchard argues that while progress has been made, new and greater monitoring and accountability mechanisms at both the domestic and international levels are critical. This work will be valuable to scholars, students, and practitioners of forced migration, international relations theory, and the Responsibility to Protect doctrine.
